## Experience

**Frontend Developer, Realcommerce** – Tel-Aviv, IL                                Sept 2023 – Present

- Built responsive React apps in TypeScript for high-volume self-checkout and cash register systems
- Defined and consumed RESTful API schemas in collaboration with backend teams
- Took ownership of debugging workflows using Windsurf AI, improving delivery speed by  30%
- Advocated for UI consistency and design fidelity through close collaboration with UX teams
- Participated in code reviews and architectural discussions across sprints
- Integrated real-time client-server communication via SignalR

**Frontend Developer, Bridgify** – Tel-Aviv, IL                                June 2022 – Feb 2023

- Collaborated with design and product teams in an agile environment to transform designs into a responsive web application using React, Typescript and Redux
- Worked with back-end developers to integrate UI components with APIs and databases
- Wrote and maintained comprehensive automated tests for React components using Jest, ensuring consistent behavior across edge cases
- Contributed to the development and maintenance of automated deployment processes for front-end applications using AWS Amplify

---

## Education

**ITC-Israel Tech Challenge**, Full Stack development Bootcamp                                Feb 2022 – June 2022

Completed a full-stack bootcamp focused on independent research, Agile development, and hands-on project work

**Bar-Ilan University**, BA in Economics And Management                                Oct 2015 – May 2018

---
